EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Line 2 of Paragraph 0001, after "2001", insert --, now U.S. Patent 6,736,180 B2--

Allowable Subject Matter

2. Claims 1-22 are allowed.

3. The following is an examiner's statement of reasons for allowance: With respect to claims 1-7, 8-12, 13-15, 16-19, the prior art of record does suggest a method of forming a compliant marking tool for attachment to a fiber placement machine (see Aibers, US Patent 5066352) with marking tips and holders. However, the prior art does not suggest a flexible member configured and adapted to flex in response to the marking tool contacting the work piece and to allow the marking tool to follow a contour of the workpiece.

As correctly pointed out in the response submitted 10/8/2003 in parent application 10/012,609, Renault is intended to mark a flat surface, and would not be intended to follow the contours of a curved surface.

With respect to claims 20-22, the prior art of record does suggest a method of using a marking tool for attachment to a fiber placement machine (see Aibers, US Patent 5066352) with marking tips and holders. Furthermore, Aibers does suggest that the first gantry, which controls the marking tool, is under the control of a NC control system (see column 7, lines 1-10). However, the prior art does not suggest a providing a flexible member that is configured and adapted to flex in response to the marking tool contacting the work piece, a holder pivotably connected to the flexible member so that the holder can pivot relative to the flexible member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
